

O.I.L. building

O.I.L. by **SENSATIVE**

Open IOT Lab in Lund

A collaborative workplace for everyone dedicated to the idea of open IoT and cloud services.

600 m2 great office and lab space dedicated to developers and makers of IoT devices, platforms & services.

O.I.L. is run by Sensative AB in Vasakronan's beautiful building "Mobile Heights Center" at Mobilvägen 10 in Lund. The premises are very well adapted to the development of both IoT and cloud services as they were built in the late 1990s to be Sony Ericsson's premier development site for mobile phones during 15 years. The premises are well adapted for development with ESD flooring, good ventilation, plenty of 220V and Ethernet outlets and even compressed air.

O.I.L. offers office and lab space as well as access to knowledge to give you the prerequisites to fulfill your dreams of IoT and cloud services!
